OUR VISION

"The entrepreneur is essentially a visualizer and actualizer. He can visualize something and when he visualizes it, he sees exactly how to make it happen"

Established in 2011, The Roongta Group envisions to create an empire that spans across various industries and meet the impeccable quality standards of every one of those industries, never overlooking economical pricing and effective service.

OUR MISSION

"Tenacity of purpose is supreme when building a successful business."

The Roongta Group aspires to promote quality, sustainability and affordability in all that we do. We are dedicated to involving ourselves in environment friendly projects that help protect and conserve the environment.

OUR VALUES

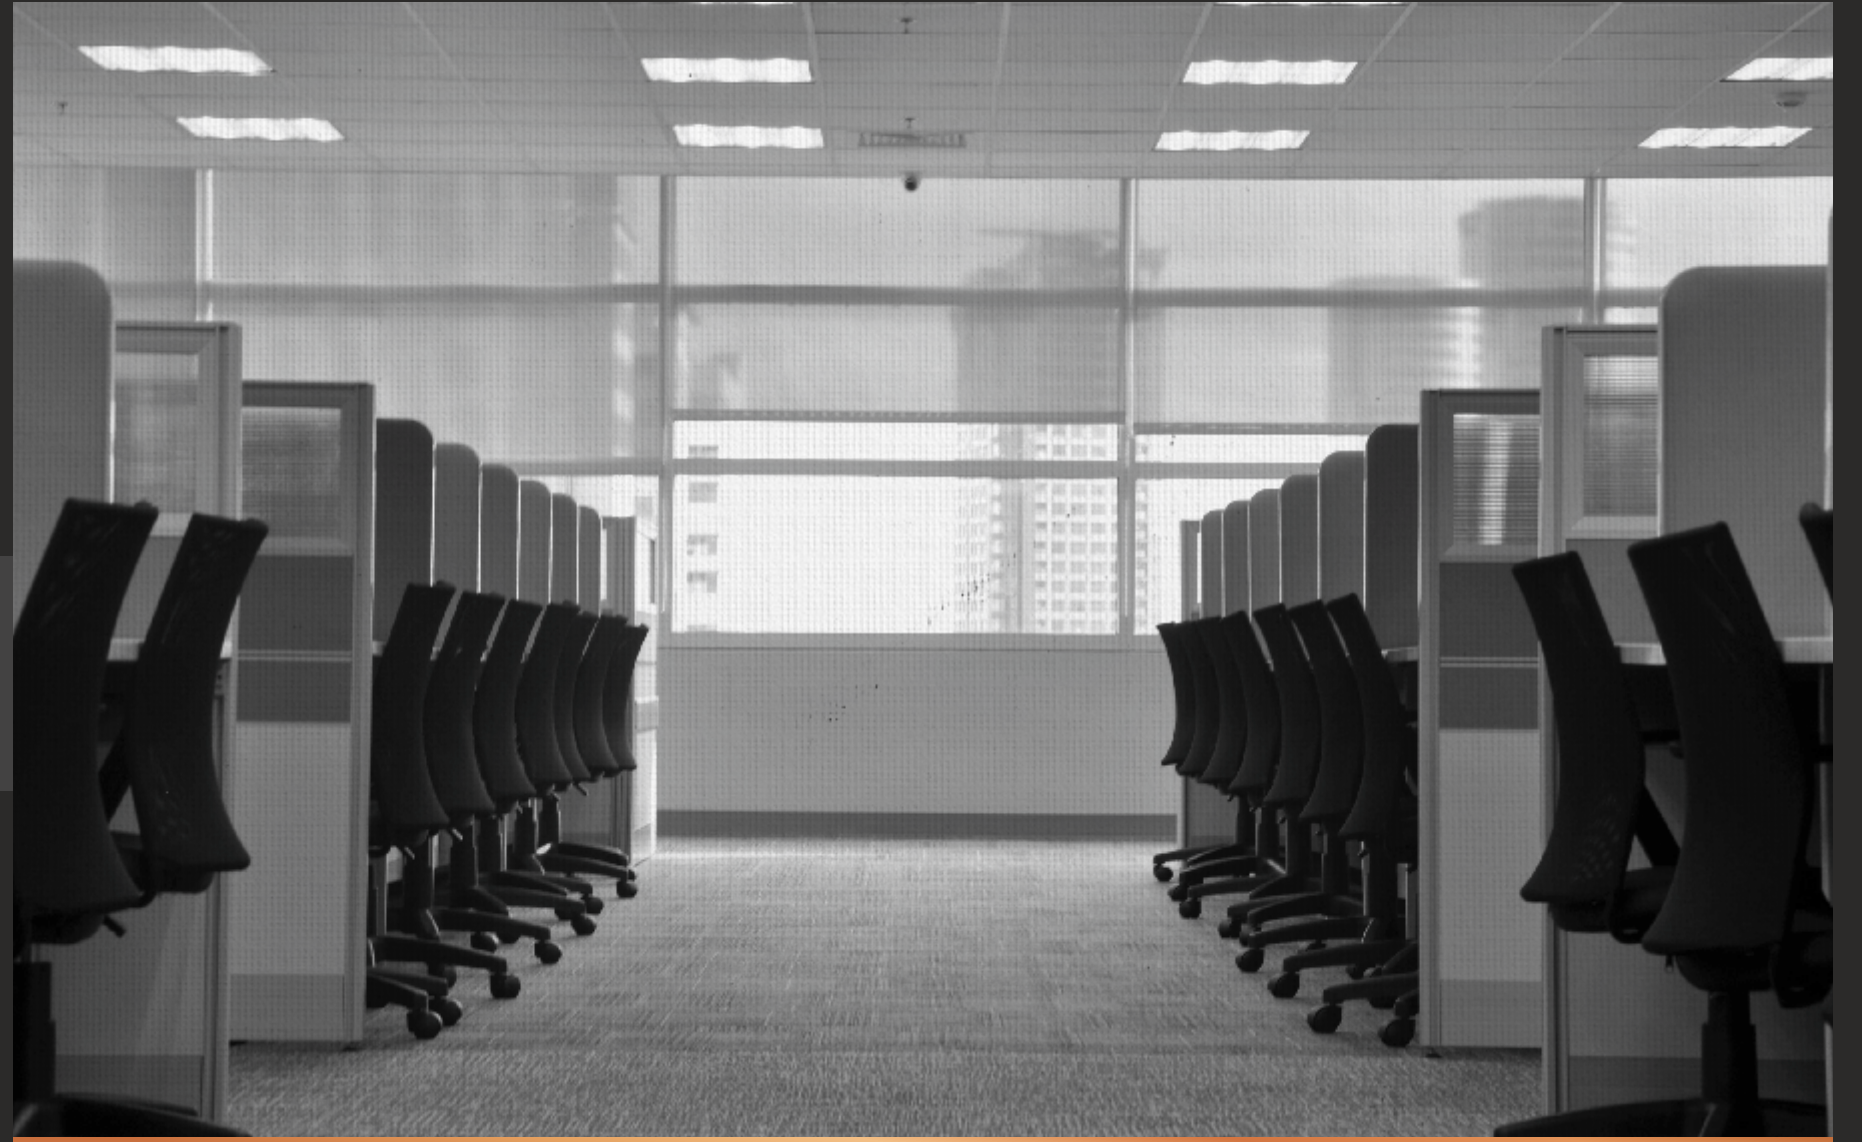

*"Your reputation is more important than your pay check
and your integrity is worth more than your career."*

At Roongta, first and foremost we believe in focusing on the consumer and their needs, trusting that everything else will fall into place once we truly understand our consumers and pay attention to detail when it comes to their expectations. Secondly, financial profit, even though on our list of motivators, is not the driving force behind our work ethic. Creating an atmosphere of positivity, determination, understanding and co-operation are at the core of our values and help us treat every day like a new day to contribute to greatness.

START OF ROONGTA

*"Coming together is a beginning,
keeping together is progress, working together
is a success."*

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an Lorem Ipsum took a galley of type and scrambled it to make a type specimen book. It has survived not Lorem Ipsum turies, but also the leap Lorem Ipsum typesetting, remaining essentially unchanged.

DIRECTOR'S WORDS

Mr. Anil Satyanarayan Roongta

"Starting a business with brothers, either ends the business or ends the brotherhood."

As the old adage goes 'when you have a childhood dream that burns and tugs at your heart when you're an adult, you owe it to yourself to pursue and achieve this dream'. In this very way, my childhood dream of creating and leading a business of my own began. Born into a simple and earnest home in JhunJhunu, Rajasthan, I came from humble beginnings. My dreams and aspirations however, motivated by reading about successful companies in the newspapers, were grand and larger than life.

My move to Surat came on 6th December 1994, after many failed attempts at trying to search for business opportunities in and around my hometown. While living with my brother and sister, I ventured into the retail business and hoped to strike gold. Unfortunately, after an unexpected fire that ravaged the factory, business prospects seemed bleak. After a short stint in the stock market trade, I set my eyes upon real estate and therein, in 2012, was actualized my childhood dream – Roongta Developers.

I do believe that luck is not the only factor

present in successfully running a business, hard work plays a pivotal role and without it, luck will rarely make an appearance. Therefore, every endeavor I ever threw myself into and continue to, beginning with my first real estate project to the very current, involves my blood, sweat and tears. Roongta developers flourished from a small-scale establishment to the giant conglomerate it is today, keeping intact our humility and gratitude for scaling the heights of success.

With the privilege of having my sons join me in business, my dream of expanding our presence beyond Surat onto other cities is visible on the horizon and triumph is but a jump and skip away. Future generations will judge us not by what we say but what we do and therefore, I hope to have set a beneficial example for them and future generations to come, teaching them not only the ropes of business but also that bringing a dream to life involves not only one man but many, that share your vision and your unending thirst for victory.

FLOURISHING FROM
THE STRENGTH
OF OUR
PILLARS

DIRECTOR'S WORDS

Mr. Ankit Roongta

“The young do not know enough to be prudent and therefore they attempt the impossible – and achieve it, generation after generation.”

Education is the passport to the future and keeping that in mind, I was very well aware of the fact that education was the stepping stone to create and be a part of a successful venture.

I always knew, subconsciously, the plans I had for my future, but was pleasantly surprised and humbled at my father's understanding and generous nature when he beckoned my younger brother and I to question us about this very future. He proceeded to state that we were privileged to be living a good life and didn't have to look far to earn an earnest living but in ending, asked us what we truly wanted to do with our lives. I knew then that the doubts in my mind had been quietened and my resolve to join my father in business had strengthened. I wanted to, not only, be a part of the company but also share his responsibility and steer the company forward.

After completing my education in the U.S. and returning to India, I was filled with a sense of ambition at merging my views

and thoughts with my fathers', at how to take Roongta Developers to new and untraversed territories.

Starting off in the sales and finance department, with a staff of about 20 dedicated team members, I learned about the workings of the company from the grassroots level upwards. It was a privilege and a joy to be able to witness an organization created solely by my father, flourishing and growing under his keen care. At the same time, it was a daunting task to tread carefully into the unfamiliar waters of the business and learn while making mistakes along the way.

My ideas and contribution to the Roongta Group took root in the form of our sister companies, Roongta Infotech, Roongta Entertainment, Roongta Rising Stock and Roongta Foundation. Success is not final and failure is not fatal and therefore at Roongta, under the leadership of my father we believe that the courage to continue is the only thing that counts.

DIRECTOR'S WORDS

Mr. Ankur Roongta

"Today's generation of young people holds more power than any generation before it, to make a positive impact on the world"

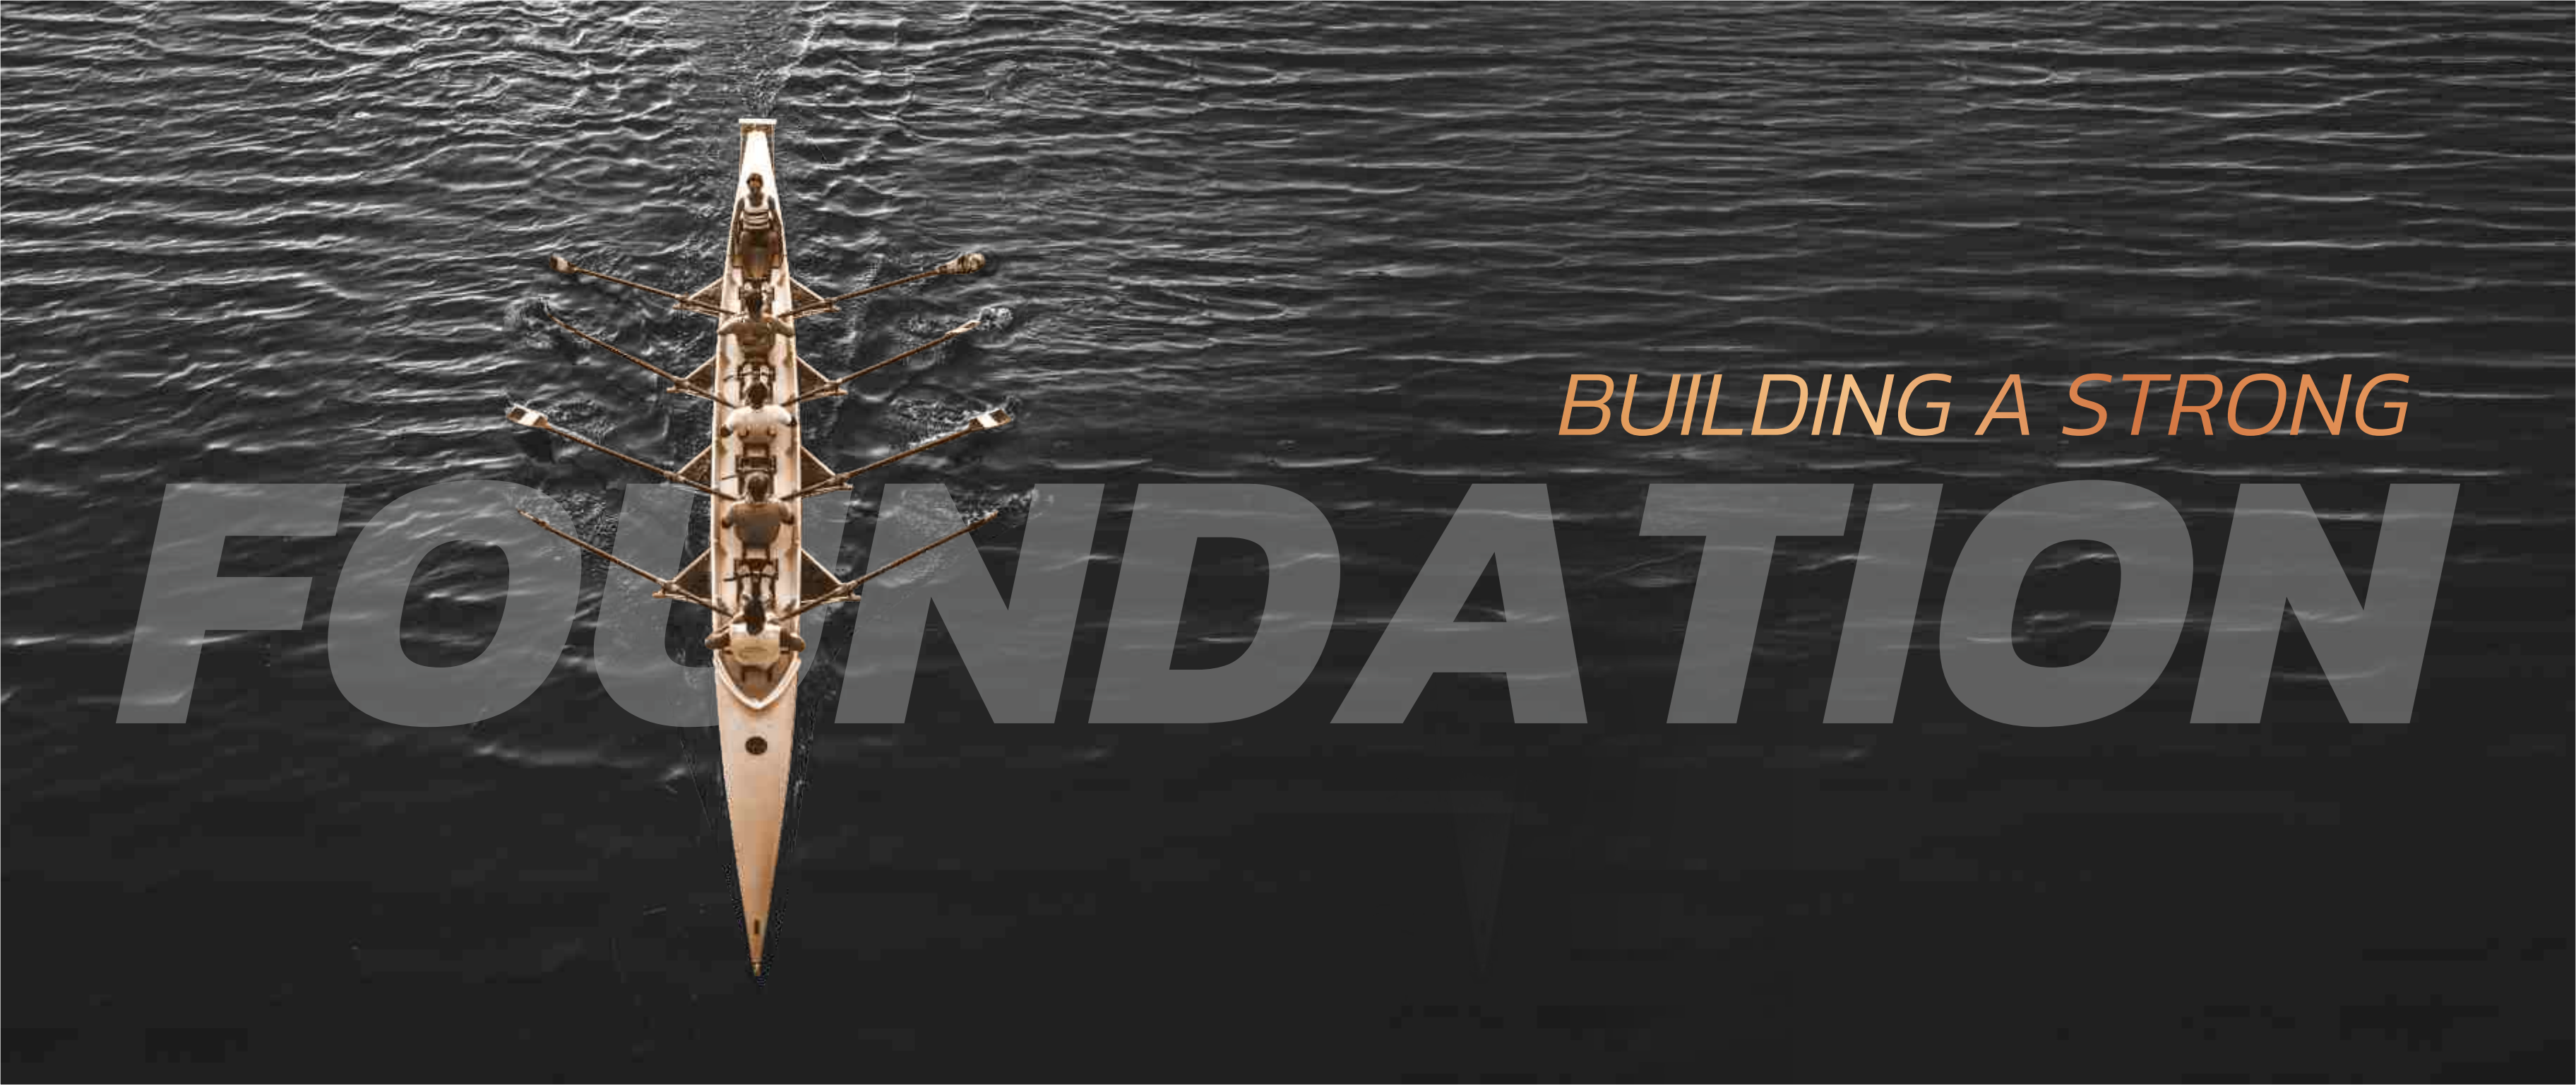

"Someone is sitting in the shade today because someone planted a tree a long time ago" My father is the embodied of this quote since his courage of conviction, hard work and dedication gave rise to, what is considered today, as one of the top real estate developers in Surat.

The first year of beginning work at Roongta Developers, I imbibed and took in all that I could, visiting real estate sites and learning for myself, the process that is involved in construction and the dealings of workers. I was aware of the importance of knowing and learning the foundation of every business in order to resolve any complications in the inner workings of the organization.

I was especially interested in introducing and creating a structure to the workings of the company and formulating a

constitution based on the values and ethics that my father had instilled in all of us. The first real estate project handled solely by myself in 2019, provided me a true sense of self and accomplishment, and cemented my ambition and aspiration to work as a family and a team to attain brilliance in every field that we conquered.

The best way to predict the future is to create it and therefore my vision for Roongta Group stretches not only across cities but countries. By diversifying into various markets, we are slowly treading into territories that pique our interest and have scope for a successful future. With the introduction of business automation, I hope to sculpt Roongta into a one of a kind organization that encourages independent decision making and fosters freedom and empowerment in the workplace.

BUILDING A STRONG

FOUNDATION

ROONGTA DEVELOPERS

Roongta developers, established in 2011, is one of the premiere real estate developers in Surat. We take great pride in being recognized as an esteemed organization that excels in providing consumers with state of the art homes at economical value.

All projects, developed by Roongta are developed in an eco-friendly and sustainable manner in order to protect and conserve the environment.

Our dedication to save the planet is reflected in all our projects, promoting tree plantations, solar powered homes, rain water harvesting and more. With our path breaking and revolutionary ideas, Roongta Developers aims to reach the heights of success.

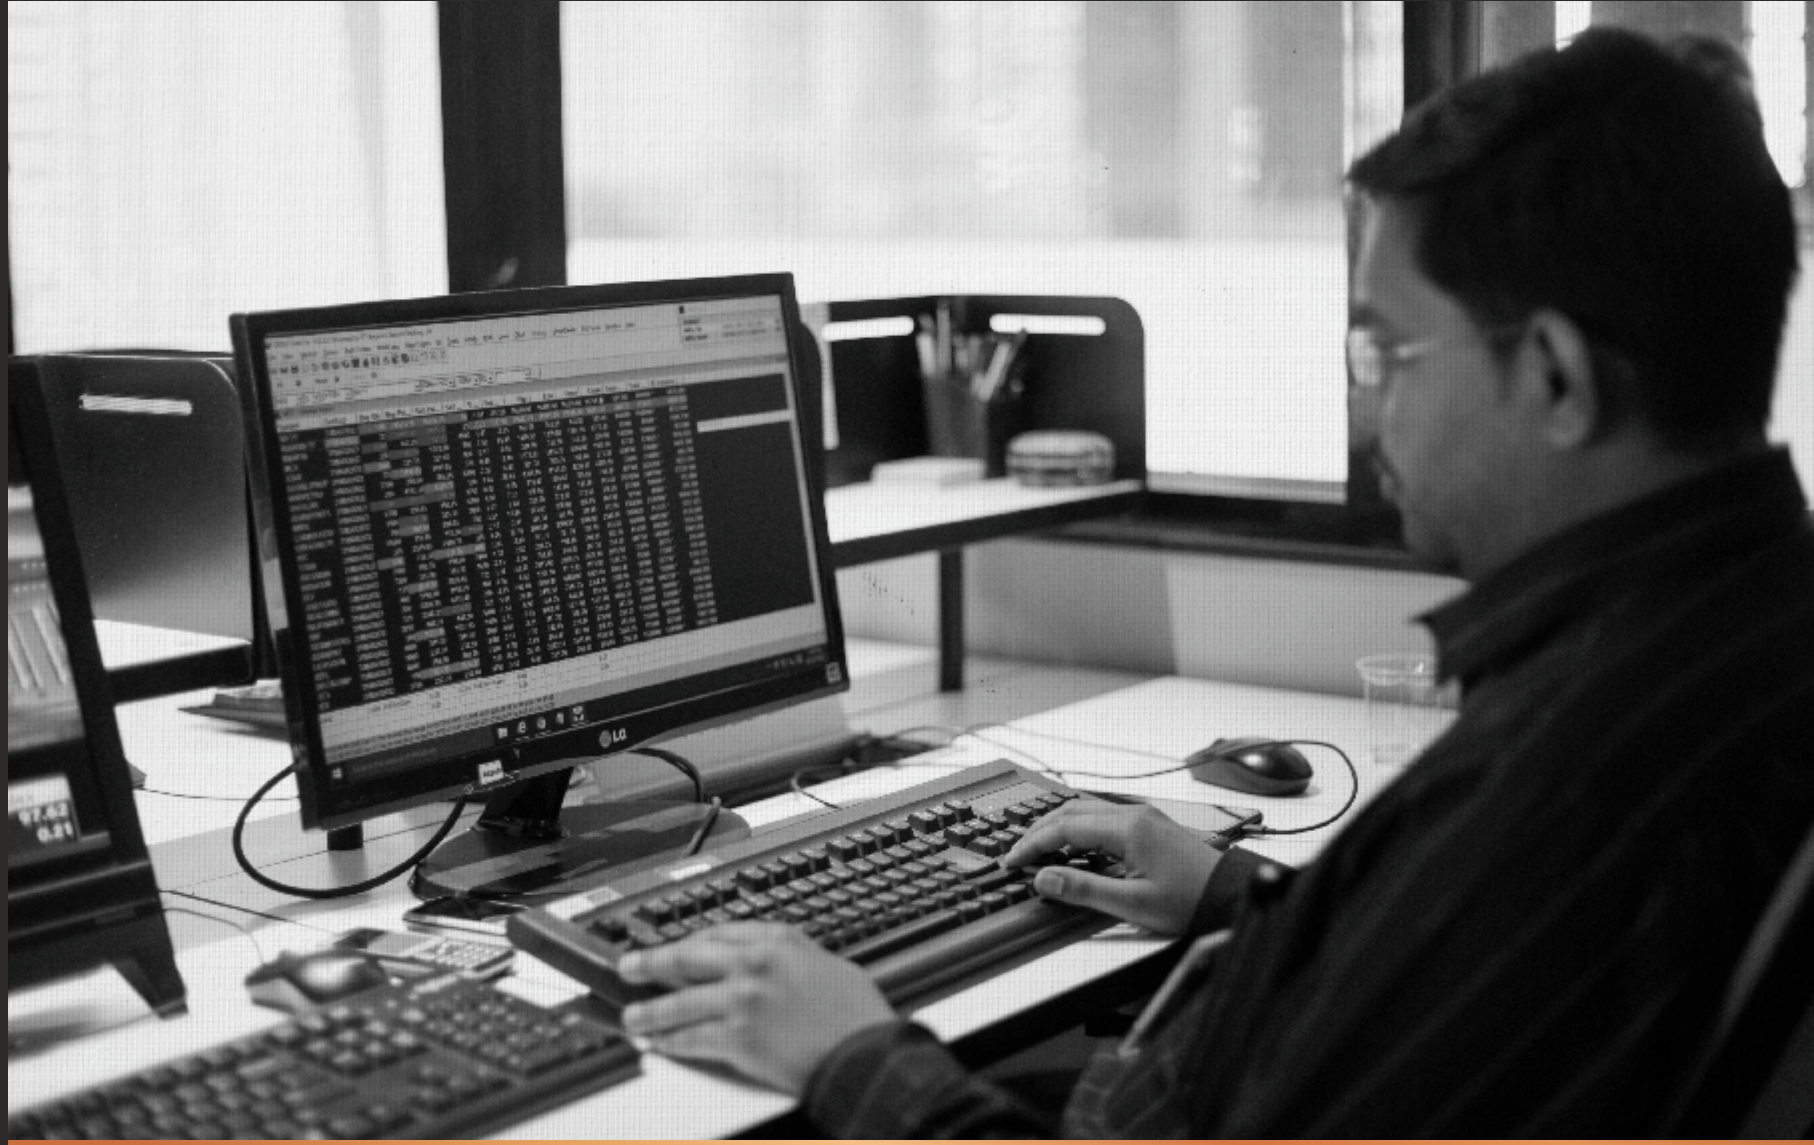

ROONGTA INFOTECH

Roongta Infotech comprises of a determined team of members that have amassed over fifteen years of experience providing effective and affordable solutions in order to help clients develop systems and solutions that work specifically for their application.

Our aim is to be known as a one-stop-solution for all your software development needs and aid you in increasing efficiency, accelerating productivity and reducing costs.

ROONGTA RISING STOCK

Roongta Rising Stock, promoted by Mr. Anil Roongta, has deservedly earned the reputation of a trader with Midas touch due to his contribution in developing unique strategies that proved to be a grubstaker and in succession has aided various investors to make a handsome profit.

We aim to foster growth by creating investment opportunities, enabling access and empowering stakeholders. Our goal is to create an everlasting impact on the investment ecosystem.

ROONGTA ENTERTAINMENT

The Entertainment Industry is known for shaping cultural and social frameworks across the globe and therefore Roongta Entertainment was formed, keeping in mind the impact that it can create on the masses.

Naam, an inaugural project, is a Bollywood film successfully produced by Roongta Entertainment along with renowned Bollywood actor Ajay Devgan, that is slated to be released soon. Upcoming ventures include involvements in web series and short movies territory.

ROONGTA FOUNDATION

Roongta Foundation was created with the concept of moving beyond all things business and impacting society with positive initiatives to contribute to a brighter and all-inclusive future.

Our objective is to build a strong foundation by providing assistance in housing, education, medical aid, women empowerment and various other social welfare enterprises.
